

|                                                                                   |       |               |
|-----------------------------------------------------------------------------------|-------|---------------|
| LEDワイドスクエアライト                                                                     | 品名    | LEDワイドスクエアライト |
|  | 型番    | LED-W-12-2A   |
|                                                                                   | 光源    | 高輝度白色LED12球   |
|                                                                                   | 配光の種類 | 非対称配光         |

| 組合せ電源装置        |              |
|----------------|--------------|
| 品番：HLG-60H-20A |              |
| 配光角            | 水平140度、垂直85度 |

| 一次側消費電力について   |               |
|---------------|---------------|
| 電源装置AC100V入力時 | 電源装置AC200V入力時 |
| 29.3W/29.7VA  | 29.3W/30.7VA  |

| 照明器具製品仕様                                |                                      |
|-----------------------------------------|--------------------------------------|
| 電源電圧                                    | DC12.18V                             |
| 電流                                      | 2.1A                                 |
| 消費電力                                    | 25.6W                                |
| 照度                                      | (中心) 1,426Lx/1m<br>(130度) 1,843Lx/1m |
| 器具光束                                    | 2,953Lm                              |
| 光源光束                                    | 3,451Lm                              |
| 固有エネルギー消費効率<br>(器具光束÷一次側入力電力) (AC200V時) | 100.8Lm/W                            |
| 色温度                                     | 5,000K +200K<br>-500K                |
| 演色性                                     | 70~73                                |

### 照明率表

作業面照明率(×0.01)

| 反射率(%) | 室指数 |    |    |     |     |     |     |      |     |     |     |     |     |     |     |      |
|--------|-----|----|----|-----|-----|-----|-----|------|-----|-----|-----|-----|-----|-----|-----|------|
